

## QUALITY, SAFETY & ENVIRONMENTAL POLICY

Mager Constructions is dedicated to achieving outstanding performance in all aspects of our business. Our core business is construction for commercial, civil and residential clients. In addition we offer services for steel fabrication, abrasive blast and paint, plant hire and screw pile installation.

Mager Constructions is an award winning member of the Master Builders Association. Mager Constructions is also a preferred Qld government supplier. Projects can be delivered across north Queensland and the east coast of Australia. To view a range of projects and awards visit [www.mager.com.au](http://www.mager.com.au).

Mager Constructions is focused on continuous improvement and this is demonstrated through the accreditation of the integrated management system. Copies of accreditation certificates are available on request.

The integrated management system encompasses ISO AS 9001:2008 Quality management, AS 4801:2001 Occupational health and safety management and ISO AS 14001:2004 Environmental management. This system ensures Mager Constructions complies with the requirements of legislation, codes of practice and industry standards.

The success of the system relies on the following principles being applied at all levels:

- ~ Allocation and awareness of responsibility
- ~ Compliance with legislative and regulatory requirements
- ~ Provision of resources
- ~ Promotion of a positive culture
- ~ Staff competency
- ~ Consultation
- ~ Establishing measurable targets and objectives
- ~ Technology adoption
- ~ Training
- ~ Measuring and monitoring
- ~ Optimising management capabilities
- ~ Review

All management, staff, and sub-contractors are committed to the application of best practice, high standards of quality control, safe work practices and environmental protection when undertaking our business activities.

Our target/ / and objective is to conduct our business without rework to achieve complete customer satisfaction, zero harm to the individual and zero harm to the environment in which we operate.
